Contact Us

Welcome Message

Dear Research Integrity Leader,

Welcome to an opportunity to become part of the **Science Integrity Alliance** – a global movement created by and for research integrity initiatives.

We are building the first comprehensive network that unites all research integrity efforts under one collaborative umbrella, amplifying each initiative's impact while strengthening the entire ecosystem.

This guide explains how your initiative can become part of our growing global community and contribute to a future where integrity guides all research endeavors. We invite you to join us in creating a more transparent, accountable, and trustworthy scientific community.

Warm regards,

Luciana Machado

Founder and Executive Director
Science Integrity Alliance

A Powerful Alliance

The **Science Integrity Alliance** represents a fundamentally different approach to research integrity collaboration. Founded in response to the research community's call to rethink how our current research system operates, we unite entities of all sizes and focus areas into one collaborative force that spans multiple stakeholders and disciplines.

Our independent business model ensures we complement rather than compete with fellow initiatives. Unlike traditional partnerships that compete for the same funding streams, our approach enables continuous mutual support without relying on the grants and funding sources that sustain our partners' essential work.

We demonstrate our power through action. Our platforms and resources empower researchers at every career stage, with most remaining freely accessible to all. Only premium services require individual membership subscriptions, supporting operational sustainability and ensuring we can continue strengthening research integrity globally.

Our Unique Approach to Integrity

01 Integrated, Cross-Disciplinary Approach

Unlike previous initiatives that operate in silos, we integrate efforts from multiple focus areas, including scholarly infrastructure, communication, research education, reproducibility, and open science. This comprehensive network amplifies the impact of all entities within our Alliance, enabling results that are unattainable independently.

02 Accessibility and Youth Focus

We prioritize accessibility through clear, concise content, ensuring easy navigation for researchers at all levels. We also focus on engaging young scientists, instilling research integrity values from the outset of their careers.

A Shared Mission for Excellence

Unite & Connect

We actively seek and unite entities that share our commitment to upholding the principles of scientific integrity across the entire research pipeline. By maintaining an extensive directory of like-minded entities, we cultivate a network characterized by excellence and trust.

Empower & Echo

We provide a dynamic platform for our partners to engage effectively, enhancing the reach and impact of our collective efforts. As facilitators, we amplify the voices of our community, ensuring that the principles of scientific integrity reach a global audience.

Grow & Guide

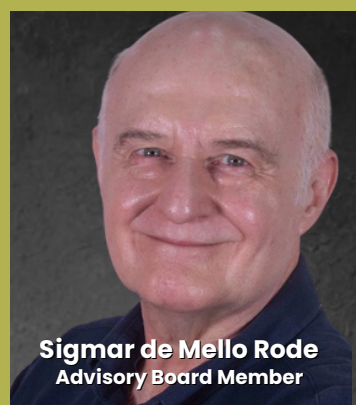

Our mission extends to shaping the next generation of scientific leaders. We are dedicated to embedding a culture of integrity within the scientific community by providing the necessary tools and mindset to fortify the foundation of scientific inquiry and ensure a future where integrity is at the core of all research endeavors.

Meet Our Leadership

Our leadership unites decades of multidisciplinary expertise with an unwavering dedication to advancing responsible research practices.

Our Executive Office drives strategic initiatives and daily operations to reinforce our core mission, while our Advisory Board provides vital counsel that shapes the Alliance's trajectory and focus areas. Together, this powerful team orchestrates global collaborations that strengthen research integrity across borders and disciplines, carefully balancing the evolving needs of the scientific community and our partners.

Benefits

Strategic Alignment

Become part of the global movement that strengthens research integrity worldwide.

Exclusive Network Access

Gain privileged access to our platform and connect with like-minded entities.

Collaborative Opportunities

Leverage our platform to engage in collaborations that share best practices and co-create initiatives.

Increased Visibility

Benefit from our facilitation to elevate your entity's visibility beyond traditional boundaries.

Service Expansion

Grow your business by offering services and products through the Alliance platform.

STRATEGIC ALIGNMENT

Your structure and focus align with ours

Whether established organizations or smaller supported initiatives, Partners advancing scholarly communication, infrastructure, education, reproducibility and open science are welcome.

Join mission-aligned leaders

Partners join through direct invitation or by applying for board review to ensure mission alignment and no conflicts of interest.

Free access, active engagement

Partners gain complimentary access to exclusive resources and engage actively to co-create innovations advancing research integrity.

EXCLUSIVE NETWORK ACCESS

Connect through our global directory

Partners are prominently featured through interactive maps and listings alongside key players from diverse focus areas.

Join exclusive network forums

Partners enjoy exclusive networking opportunities and engage in meaningful discussions shaping research practices.

Drive change through collective action

Partners benefit from collective action to drive impactful projects that address key challenges in the research ecosystem.

COLLABORATIVE OPPORTUNITIES

Collaborative channels at your fingertips

Partners access dedicated forums for launching joint projects and exchanging valuable methodologies across disciplines.

Coordinated pathways to impact

Partners join facilitated meetings and connect with fellow innovators from academia, research institutions, and industry to develop high-impact initiatives.

Collaborative project funding opportunities

Partners receive opportunity announcements for collaborative projects funded through member contributions and evaluated by our Advisory Board.

INCREASED VISIBILITY

Your solutions amplified in our network

Partners' open access solutions gain visibility through our "Browse Solutions" page, expanding their reach to researchers worldwide who can discover and benefit from their tools.

Your profile in the spotlight

Partners establish recognition within the research community through our communication channels and featured placement across our digital platforms.

Your successes celebrated across all channels

Partners' achievements and innovations are showcased through our global communications, highlighting your impact and positioning you as a leader in the research integrity community.

SERVICE EXPANSION

Provide content creation services

Partners act as independent contractors, creating valuable content and educational materials across our free-access and subscription-based resources.

Reach new markets with your offerings

Partners showcase consulting, educational services, and products on our digital marketplace with performance-based fees as outlined in separate commercial agreements.

Operate independently as service providers

Partners independently deliver their offerings with full autonomy, maintaining direct client relationships while contributing to the Alliance's collaborative ecosystem.

TERMS AND CONDITIONS

Alliance Commitments

- **Platform & Resources:** Provide up to 5 complimentary individual memberships (including 1 mandatory organizational account), partner-exclusive forum access, and marketplace for services/products. Additional memberships at discounted rates.
- **Recognition & Visibility:** Ensure partner recognition through website logo display, featured initiatives in communications and social media. Partners receive discounted advertising rates with priority booking and exclusive packages.
- **Networking & Funding:** Facilitate project co-creation and provide funding opportunity notifications (subject to Advisory Board evaluation and Executive Director approval).

Partner's Responsibilities

- **Mission & Standards:** Focus on research integrity through scholarly communications, education, reproducibility, and/or open science while avoiding conflicts of interest.
- **Profile & Compliance:** Create organizational profile, notify changes in membership accounts, ensure compliance with Alliance's Terms of Use and Code of Conduct.
- **Brand & Engagement:** Use Alliance name/logo per guidelines, maintain confidentiality, support collaborative opportunities within partner's network.

NOTICE: The Alliance connects independent entities to foster research integrity collaboration. This is not a joint venture—Partners operate independently. The Alliance assumes no responsibility for Partners' services, products, content, or practices. See our [Partnership Program](#) page for more information.

A New Era for Research Integrity

In collaboration with our Partners, we develop targeted initiatives that drive systematic change and advance integrity in research worldwide.

As the first global alliance uniting leaders across sectors and disciplines, we harness our collective strengths to create impactful solutions and establish new standards.

**Together, we lead the
movement toward a more
transparent, accountable,
and trustworthy scientific
community.**

Resources

Beyond the solutions provided by our partners, the Alliance co-develops seven comprehensive resources designed to empower researchers at every career stage. These include LEARN (interactive learning hub), MOSAIC (open science mapping platform), REACH (e-magazine), MIRROR (visual meta-research hub), HIKE (expert discussion forum), STRIDE (global integrity directory), and the Junior Hub for young learners.

These resources serve as essential tools for researchers to navigate integrity principles, access credible guidance, implement open science practices, and forge meaningful connections across disciplines. Together, they create a supportive ecosystem that addresses the real-world challenges researchers face in their daily work.

Current Projects

Advancing Open Science Across Brazil

In collaboration with **Road2Openness**, we are adapting the Open Science Self-Assessment tool for Brazilian institutions to evaluate and enhance their Open Science practices.

Popularizing Metascience Through Media

We are working with **The Collaborative Library** to create the MIRROR hub, where metascience becomes accessible to broader audiences through engaging video summaries of key publications.

Mapping Open Science Resources

In collaboration with **Access2Perspectives**, we are developing **MOSAIC**, an interactive and dynamic view of Open Science resources from around the globe.

Academic Institutions & Professional Societies

Academic Excellence & Recognition

Academic institutions and professional societies are essential partners in building research integrity culture. The Science Integrity Alliance welcomes these organizations as **Institutional Supporters**, celebrating outstanding achievements through our annual Alliance awards and global recognition programs that honor exceptional commitment to best research practices.

Showcase & Amplify

We amplify institutional leadership by featuring innovations and best practices through our global platforms. This positions our supporters as inspiring models while connecting them with leading peer organizations worldwide, creating a network of excellence that drives meaningful change across the research community.

Develop & Inspire

We transform successful institutional programs and society initiatives into educational case studies and resources that benefit the global research community. Through collaborative exchanges and knowledge sharing, our supporters inspire other organizations and help cultivate the next generation of responsible researchers.

Flexible Collaboration Models

Department-Level Recognition – Individual departments showcase specific research integrity innovations and leadership within their disciplines.

Institution-Wide Collaboration

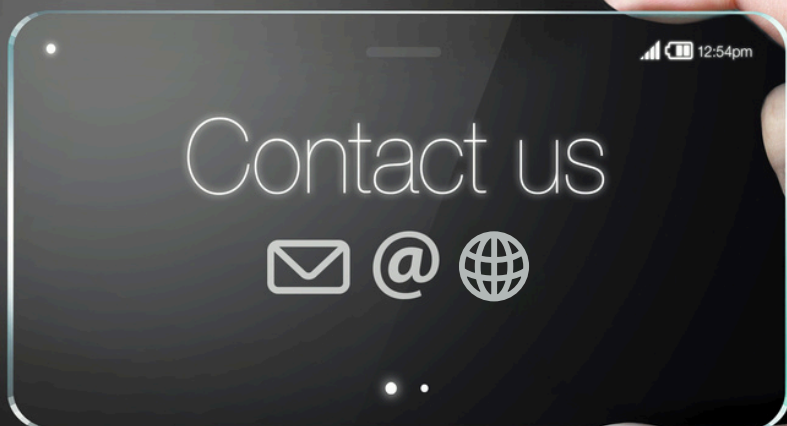

Comprehensive university engagement featuring multiple initiatives across schools, departments, and administrative units.

Research Office Partnership

Highlight the work of research integrity offices, compliance teams, and graduate schools as models for other institutions worldwide.

Professional Society Partnership

Showcase societies' ethical guidelines, professional standards, and integrity training programs as disciplinary models for the global research community.
